OUR TRIO OF ISLANDS

The Cayman Islands. Grand Cayman, Cayman Brac and Little Cayman, are located in the Western Caribbean about 150 miles south of Cuba, 460 miles south of Miami, Florida, and 167 miles northwest of Jamaica. George Town, the capital, is on the western shore of Grand Cayman.

GRAND CAYMAN, the largest of the three islands, has an area of about 76 square miles and is approximately 22 miles long with an average width of four miles. Its most striking feature is the shallow, reef-protected lagoon, the North Sound, which has an area of about 35 square miles. The island is low-lying, with the highest point about 72 feet above sea level in North Side.

CAYMAN BRAC lies about 89 miles northeast of Grand Cayman. It is about 12 miles long with an average width of 1.25 miles and has an area of about 14 square miles. Its terrain is the most spectacular of the three islands. The Bluff, a massive central limestone outcrop, rises steadily along the length of the island up to 153 feet above the sea at the eastern end.

LITTLE CAYMAN lies five miles west of Cayman Brac and is approximately ten miles long with an average width of just over a mile. It has an area of about 10 square miles. The island is low-lying with a few areas on the north shore rising about 63 feet above sea level.

Christopher Columbus.

THE HISTORY OF THE CAYMAN ISLANDS

HOW THE CAYMAN ISLANDS GOT ITS NAME

The Cayman Islands was first sighted by European explorers on May 10, 1503, owing to a chance wind that blew Christopher Columbus' ship off course. On his fourth and final voyage to the New World, Columbus was en route to the island of Hispaniola (home to Haiti and the Dominican Republic) when his ship was thrust westward toward "two very small and low islands, full of tortoises (turtles), insomuch that they looked like little rocks, for which reason these islands

were called Las Tortugas".

The two islands sighted were Cayman Brac and Little Cayman. A 1523 map showing all three islands gave them the name Lagartos, meaning alligators or large lizards, but by 1526 the name Caymanos was being used. It is derived from the Carib Indian word for the marine crocodile, which is now known to have lived on the islands. This name, or a variant, has been retained ever since. Thus the word eventually developed into Cayman and adding the word islands, we became the 'Cayman Islands'.

WHO WERE THE FIRST INHABITANTS?

The first recorded English visitor who visited our shores was Sir Francis Drake in 1586. The first settlers were two settlers from the disbanded army of Oliver Cromwell who came in the late 1650's who came for the purpose of catching turtle. Isaac Bodden, the first recorded permanent inhabitant of the Cayman Islands, was born on Grand Cayman around 1700. A variety of people settled on the islands: pirates, refugees from the Spanish Inquisition, shipwrecked

sailors and slaves.

The first recorded settlements were located on Little Cayman and Cayman Brac during 1833 - 1840. Other settlers moved to Grand Cayman as this offered them better protection from attack by the Spanish ships, since the settlers could hide in the woodlands when necessary. Likewise, on Grand Cayman there was more land to cultivate. As a result, the settlements of East End and Bodden Town were founded around the same time. The earliest population record of the Cayman Islands goes back to the year 1773 when it was estimated that a total of 450 persons lived on the islands.

FLAG OF THE CAYMAN ISLANDS

The Cayman Islands flag, the official ensign, was adopted in 1959, shortly after the coat of arms was adopted. There are two versions of the flag – the blue for use on land and the red for use at sea. These are based on the British blue and red ensigns.

COAT OF ARMS

The Cayman Islands coat of arms consists of a shield, a crested helm and a motto. Three green stars representing the islands are set in the lower two-thirds of the shield. The stars rest on blue and white wavy bands representing the sea. In the top third of the shield, against a red background, is a gold griffin "passant guardant" (walking with the further forepaw raised and the body seen from the side), representing Great Britain. Above the shield is a green turtle on a coil of rope. Behind the turtle is a gold pineapple. The turtle represents Cayman's seafaring history; the rope, its traditional thatchrope industry; and the pineapple, its ties with Jamaica. The islands' motto, "He hath founded it upon the seas", is printed at the bottom of the shield. This verse from Psalm 24:2 acknowledges Cayman's Christian heritage.

CREATIVITY ABOUNDS ART & CULTURE

EXPERIENCE TRADITION & CULTURE

Caymanians were historically competent crafters, first as skilled boat builders and later, rope and basket makers. The rope made from the silver thatch was exported to neighbouring islands and was highly prized since it was resistant to the damage of salt water. Today, this tradition is alive and well, mostly in the form of plaiting to create works of art, such as baskets, fans, hats and brooms. Thatch artists still create their masterpieces in the manner of their ancestors - by hand. Very rarely, if at all, are machines used in production, making each item a unique piece of art.

The discerning buyer treasures hand-crafted art and will pay a premium for such works. Today, only a couple generations removed from the commencement of the economic maturing of the Cayman Islands, and with solid education and a world of creative ideas at their fingertips, young Caymanians are producing high-quality creative works in the fields of painting, ceramics, jewellery, sculpture, music, theatre, creative writing and film.

THE CAYMAN ISLANDS ART SCENE

The Cayman Islands enjoys a vibrant art scene with over 250 practicing artists, seven commercial galleries, a National Gallery with a permanent art collection and up to ten rotating contemporary art exhibitions per annum, several publicly accessible artist's studios, and many more exhibition spaces hosted in restaurants and cafes across the island.

Artists can be found working in a wide range of genres and media including painting, sculpture, ceramics, photography, weaving and fine craft and, increasingly, contemporary art forms such as installation, video and assemblage. Owing to the spectacular nature of our surroundings, realistic depictions of land and seascapes, which were the dominant subject matter up until the mid-1990s, remain highly collectible, while a younger generation of artists is seeking to articulate a uniquely Caymanian experience in their work, and striving to express their location within 21st century Caymanian society.

Work by many of these artists can be viewed at local commercial galleries in Seven Mile Beach area, and others spread throughout the outer districts.

FOLKLORE & STORYTELLING

The closely-knit communities of the Cayman Islands were known for their folklore and storytelling, which was the primary form of entertainment in these remote islands that 'time forgot'. Now, storytelling and the islands' musical heritage are being kept alive with a number of programmes of the Cayman National Cultural Foundation, such as Gimistory, Cayfest and The Cayman Islands Folk Singers.

Gimistory, the international storytelling festival of the Cayman Islands, occurs in late November/early December and attracts many local and international storytellers and Cayfest happens in February and includes the National Arts & Culture Awards, Dress For Culture Day and the one day arts festival called Red Sky At Night where we celebrate all forms of art and culture including music, crafts, visual arts, film and food.

Cayman Islands is to promote the appreciation and practice of the visual arts of and in the Cayman Islands.

In February 2012 the National Gallery of the Cayman Islands (NGCI) opened the doors to its new purpose-built home on the Esterley Tibbetts Highway.

Holding up to six exhibitions annually at a central exhibition space and satellite venues in the Sister Islands, the curatorial team strives to create a balance between Caymanian art exhibitions and art from further afield. In addition, the National Gallery is home to the National Collection, a significant body of Caymanian artwork which has been collected and maintained by the National Gallery since its inception. There is a permanent exhibition in the upper Gallery which features pieces from the collection. The National Gallery combine arts education with enriching creative experiences which foster creativity, help build self-esteem and provide effective and invaluable explorations of culture and community.

THE CAYMAN NATIONAL CULTURAL FOUNDATION
The Cayman National Cultural Foundation holds steadfast to their mission, "To stimulate, facilitate and preserve cultural and artistic expression generally, particularly the preservation and exploration of Caymanian performing, visual and literary arts."

The non-profit organization owns the Gladwyn K. Bush (Miss Lassie) Collection of art, which consists of 125 original paintings, and owns and manages the cultural heritage site that is 'MIND'S EYE, The Visionary World of Gladwyn K. Bush', also known as "Miss Lassie's House".

Cayfest, The Cayman Islands National Festival of the Arts, showcases local artists and heritage, including performances by the Cayman Islands Folk Singers, during the month of April. Each year, in late November to early December, Gimistory, The International Storytelling Festival of

the Cayman Islands, features storytellers from Cayman, the Caribbean and beyond. The F. J. Harquail Cultural Centre, namely the 300 seat Harquail Theatre, along with the 72 seat Studio Theatre, is considered Cayman's National Theatre. The Foundation presents most of its theatrical productions at these theatres, including Cayman's longest running and most popular stage show, Rundown.

This musical comedy revue, now written, directed and designed by Henry Muttoo (from an original concept by Dave Martins) has been staged annually since 1990.

CNCF offers training and support to local artists in the performing, visual and literary arts. The Foundation provides programmes aimed at young people involving the artistic disciplines of drama, dance, storytelling and music.

MEETING THE LOCALS

Luigi Moxam.

LUIGI MOXAM

Luigi Moxam is known to his community as the “Guardian of Caymanian Culture.” The owner of Cayman Cabana Oceanside RestoBar and clothing brand One Tree Four Five, Luigi founded both enterprises to preserve and popularize authentic Caymanian culture. The ever-energetic entrepreneur’s clothing line displays a fresh artistic sensibility, while his restaurant gives patrons the chance to enjoy their passions for food, music and life. Luigi works hard to commemorate the culture and lifestyle of the Cayman Islands, but beyond his businesses endeavors, Luigi is heavily involved in the George Town community. He is an active Director of Rotaract Blue Cayman Islands, a non-profit service-based organization that is part of a global effort to bring peace and stability to the world. Its members work to address the physical and social needs of their Caymanian community through political outreach and volunteer service. Luigi is also an advocate for helping young adults to better understand and participate in the voting system and supports the Blue Iguana Recovery Programme, which was developed to help prevent the extinction of the iguana. Both Luigi’s success in the business world and his strong stance on social entrepreneurship come together to award him a priceless role in the Caymanian community.

MISS JULIA HYDES

Miss Julia Hydes, known to many as “Aunt” Julia, is a musical treasure with a past coloured by decades of traveling around the Cayman Islands, singing and drumming alongside famed Caymanian fiddlers and musicians. At 106, she is the oldest living Caymanian and is the last member of a longstanding traditional Caymanian music community. Never formally taught how to play the drums, Aunt Julia learned her craft by watching local musicians, emulating and altering their techniques to eventually create her own style of drumming. Becoming an impressive percussionist, she played at a variety of events with family and friends, composing songs that helped to popularize Caymanian folk music. She continues to perform for and share her knowledge of music with anyone who wants to experience true Caymanian culture. Julia has received many awards for her work in music and culture throughout the Cayman Islands, including a Cayman National Culture Foundation (CNCF) Award for pioneering work in cultural heritage as well as the Certificate and Badge of Honour in 1996. Miss Julia is an invaluable member of the Cayman Island society and continues to touch the hearts of locals and tourists who visit her cherished home.

Miss Vivine.

Miss Julia Hydes.

MISS VIVINE

Miss Vivine is known around the world for her exceptional food and service at “Vivine’s Kitchen,” a delight in Caymanian local cooking that operates directly out of her home. She has been known to welcome visitors even when her restaurant is closed, a Caymankindness that evinces her desire to offer the best local experience that she can. Locals and tourists alike are invited into her home for a traditional West Indian meal made of ingredients that are fresh from the day, and diners are provided with scenic views of the ocean from the waterfront courtyard of the house. “Vivine’s Kitchen” is such an important staple in Cayman culture that it made the “Top 101 Best Places to Eat: Latin America” in a 2012 edition of Newsweek Magazine, while Miss Vivine herself was recognized in 2013 by the Cayman National Cultural Foundation for preserving Cayman’s local culinary skills.

MISS GLADYS HOWARD

Miss Gladys Howard is an award-winning cookbook author who owns and manages the Pirates Point Resort on Little Cayman. Although her business is well-known and a comfortable place for visitors to stay, it is her work as a community leader that makes Gladys vital to Cayman Islands culture. When she first moved to Little Cayman she helped expand the National Trust's land sanctuary and instituted local events to foster tourism like Mardi Gras celebrations, large-scale auctions and bike races. She has also participated in TV cooking shows, including a BBC show that helped promote the islands. Gladys received the Queen's "Badge of Honor" by Prince Edward for her contributions to environmental conservation and the National Trust in Little Cayman. She continues to be involved with the National Trust and in December 2013 the Preston Bay Iguana Habitat was dedicated to Gladys. She also received the Lifetime Achievement Award from the Cayman Islands Tourism Association for her instrumental role in increasing tourism to the sister island. Gladys continues to work with other locals to maintain tourism through restaurants, accommodations and attractions that are built on authentic Caymanian traditions.

THE LOCALS

TENSON SCOTT

Tenson Scott, a fisherman and former merchant seaman, is the owner of NIM (short for Natural Island Made) Things, a souvenir shop filled with crafts from Cayman Brac, mostly by Scott and his family. He opened the store with his wife, Starrie, in 1987 and they continue to work at the shop with daughter, Simone. As the only person allowed to forage for chitons on the Cayman Islands, Scott is known for his jewelry made from Caymanite, chitons, horse-eye seeds and a variety of conch shells. Beyond his beautiful and exceptional jewelry and art, Scott himself has become famous for his entertaining stories and likeable personality, drawing tourists to his store not only to look at his newest creations but also to hear him speak. Included in countless travel books and numerous write-ups on travel websites, he is considered one of the top artists in Cayman. Cayman Brac relies on the local enterprise of the artists working especially with Caymanite. Because of this, Tenson's works have won national prizes and were the official gift to Queen Elizabeth II and Prince Andrew during the 1994 state visit.

ANNALEE EBANKS

Annalee Ebanks is one of the few remaining Cayman Brac residents who teaches the traditional art of thatch. Nurturing her passion for more than 60 years, she now sells her handmade hats, slippers, coasters, bags and more at various stores and markets across the island. Skilled in her work and eager to take the time to provide one-on-one feedback to her students, Mrs. Ebanks helps tourists and locals make one-of-a-kind handmade souvenirs that recall the islands' rich history. She is considered one of the best local craftspeople in the Cayman Islands and was awarded the Pioneer Award in 2014 for her significant cultural contributions between 1960 and 2003. Mrs. Ebanks has also won several prizes at Cayman Brac Agriculture Shows and receives orders from The Ritz-Carlton, Grand Cayman.

Bona Fide CAYMAN

Purveyors of exceptional live entertainment

A fully live, versatile band providing bespoke vocal and instrumental entertainment for your Cayman Wedding

Review some of our photos, videos and testimonials online at www.weddingwire.com/bonafide

"We were married at sunset with the most perfect setting we could imagine, the only thing that made the day more extraordinary was the sweet sounds of Bona Fide. Isadora performed a beautiful original song. It was wonderful and just right for our special day! After dinner we enjoyed a great variety of music with plenty of Caribbean flair - the band had all of our small group dancing - Bona Fide was perfect. We would highly recommend Isadora and her band to make your wedding day even more memorable!"

CAYMAN BRAC & LITTLE CAYMAN ISLAND HOPPING TO OUR SISTER ISLANDS

CAYMAN BRAC

The larger of the two Sister Islands, Cayman Brac caters to adventure-loving nature enthusiasts with its spectacular hiking trails and caves. Named for its breathtaking 140 ft bluff, the "Brac" is a rugged and charming 14 square miles filled with some of the Cayman Islands' most dramatic vistas and wildlife. Only a 30 minute plane ride from Grand Cayman, you'll feel as though you're worlds away on the serene shores of Cayman Brac.

LITTLE CAYMAN

A day on the smallest island of all three, is an adventure in seclusion unlike anything else in the Caribbean. With fewer than 170 residents, most of the island is free of people and full of glistening white sand beaches that make your trip feel like a private island vacation. Though only 10 miles long and 1 mile wide, Little Cayman has all the makings of a perfect Caribbean vacation: beautiful luxury accommodations, white sand beaches, a welcoming and safe community, and more stunning scenery than visitors could ever imagine.

COSMOPOLITAN GRAND CAYMAN

Sophistication and sheer elegance. Complemented by some of the world's preeminent white sand beaches, crystal clear waters and pristine coral reefs. The luxury to indulge in a wealth of pursuits like spectacular dining, gracious accommodation, decadent duty-free shopping or a seemingly endless array of alluring diversions and activities. Market at the Grounds is such a popular feature of life on Grand Cayman that it is recreated in a different setting – at Camana Bay every Wednesday, when vendors from across the island converge on the corner of Forum Lane and Market Street to sell fresh produce, handicrafts and a wide variety of local dishes.

For many restaurant operators, homeowners and just about anyone who favours fresh, locally grown foods and the friendly environment of community shopping, Market at The Grounds is an essential part of the weekly routine.

12. Fort Prospect Historic Site – Nothing remains of Fort Prospect or the town it protected. The low lying area was wiped out by the hurricane of 1932 and is now home to more modern homes and mansions. The monument was erected in the 1950's and is a scenic overlook of South Sound.

13. Watler Cemetery Historic Site – The Watler Cemetery is home to traditional "house-shaped" graves. Interpretive signage gives a historic reflection of the cemetery and surrounding area.

16. Savannah Schoolhouse Historic Site – This wattle and daub building, built with Ironshore posts and lime plaster from coral rocks, opened its doors for classes in 1940. It was used as a classroom for 41 years in Savannah. This site is open by appointment only. Please call the Trust at 949-0121 to arrange.

18. Pedro St. James Historic Site – "Pedro Castle" is Cayman's oldest and most important historical building. The facility includes a multi-media display, snack bar, gift shop, and historic buildings. Don't miss the dramatic view from Pedro Bluff as waves crash ashore from the south. Admission charge.

19. Bodden Town Guardhouse Park – This highest spot in Bodden Town was the site of an old fort long since destroyed. During World War II, a lookout post was established to scan the seas for German submarines. Interpretive signage gives a record of Bodden Town's history and attractions.

20. Mission House Historic Site – One of Cayman's oldest buildings, The Mission House was named for its use by Presbyterian Missionaries in the 1800's.

22. Central Mangrove Wetlands Reserve – The National Trust owns over 600 acres of wetlands in this critical reserve. Red Mangrove forests border the North Sound and offer protection for scores of juvenile sea creatures.

This "Nursery of the Sea" also protects land and human habitation inland from the effects of hurricanes. Inland forests of Black and White Mangroves, Buttonwood, and giant ferns filter rain water washing from miles inland providing one of the most productive ecosystems on earth. This area is accessible only by boat and is heavily protected as an Environmental Zone.

23. Heritage Beach – This quiet beach faces Frank Sound, with crystal clear water, turtle grass beds, and the distant coral reef. No facilities.

27. East End Public Beach – A jetty, huts, and restrooms are available at this quiet scenic beach.

28. Salina Reserve – The National Trust's Salina Reserve is the site of the re-introduction of the endemic Cayman Blue Iguana. It comprises some 600 acres of mixed woodlands and wetlands home to many endangered plants and animal species. The Reserve is inaccessible and is not open to the public.

WILDLIFE

10 AMAZING THINGS

you never knew about the Cayman Islands and its wildlife.

ONE

The Cayman Islands are part of a mountain range called the Cayman Ridge, which rises more than 7,500m – or the size of a very large mountain in the Himalayas – from the ocean floor. The abyss known as the Cayman Trench is very deep and home to the hottest hydrothermal vents in the world. These are cracks in the seabed from which superheated water, up to 450°C emerges. Unique life forms live here, including a species of eyeless shrimp that has a light-sensing organ on its back. Having said that, the highest point above sea level is near the east end of Cayman Brac – and that's just 46.6m.

TWO

There are no rivers in the Cayman Islands. As the islands are the peaks of a limestone mountain, and limestone is really porous, all the water just runs through it rather than off it. This lack of 'run-off' means that the visibility in the sea is exceptional and makes Cayman one of the world's top diving locations.

THREE

There are many parrotfish in the Cayman Islands and what's interesting about parrotfish, apart from the fact that they can go from being male to being female and back again, is that they excrete sand. They munch on rock and coral, and it comes out as sand. Which is why there are so many great beaches on the islands.

FOUR

Cayman has its very own blue dragon, an iguana found nowhere else in the world which is incredibly rare and really is blue. It is estimated there were about a dozen of these amazing beasts remaining in 2002, making it 'Functionally Extinct' but thanks to an extensive breeding programme in Grand Cayman the blues are back in force. In 2012 over seven hundred were counted, taking the species off the IUCN Red List as 'Critically Endangered', they are now classified as 'Endangered' and are prevalent enough to be spotted, you can even walk right up to them.

FIVE

In the middle of North Sound on Grand Cayman, wild Southern stingrays gather in huge numbers at a place called 'Stingray City'. You can get in the water with them, and meet them personally, your boat captain will even be able to tell you some of their adopted 'names'.

SIX

The Cayman Islands are home to three sea turtle species: the green, the loggerhead, and the hawksbill. Green and loggerhead turtles nest on beaches all around the Cayman Islands, including Seven Mile Beach. From May to September, female turtles crawl up onto the beach to lay eggs in the sand, and from July to November the eggs hatch. Each nest produces about 100 baby sea turtles! Hawksbill turtles can be seen in Cayman waters while snorkelling or scuba diving. By the early 20th century, the Cayman turtle nesting population was nearly extinct, but due to conservation efforts, nesting numbers are now increasing each year.

SEVEN

The only native land mammals of the Cayman Islands are bats. Some of them only eat fruit such as wild almonds and some only eat insects such as moths, beetles and mosquitoes. There's also the buffy flower bat, which is only found in the Caribbean and drinks nectar from flowers like a hummingbird.

EIGHT

There are over 230 birds in the Cayman Islands. Little Cayman has the largest colony of red footed boobies in the Western Hemisphere. A close relative of the Atlantic gannet, these remarkable birds may fly up to 125km in a single day on a fishing trip, and then 125km back home again, and can be away for more than 12 hours.

NINE

The Grand Cayman pygmy blue Brepidium exilis thompsoni is a Grand Cayman endemic subspecies of butterfly, found nowhere else in the world. It was first discovered in 1938 and was not found again until 1985, when two colonies were located on the north and west coasts.

TEN

In a secret bay on Grand Cayman, one of only a dozen places worldwide, there exists the rare and magical phenomenon of bioluminescence. This extraordinary natural light show is caused by a high concentration of a particular species of plankton alongside red mangroves and minimal light movement in the sheltered water, resulting in a stunning bioluminescence light, best seen on very dark nights on a tour with Cayman Kayaks or Cayman Sea Elements.

INTERNATIONAL FARE

CULINARY GRAND CAYMAN

DIVERSITY AND QUALITY

For those well travelled, the Cayman Islands is a destination long known for culinary excellence and divine dining experiences. This tiny trio of islands has over 200 restaurants, offering both locals and travellers great diversity, quality and selection when it comes to the dining scene.

CULINARY PEDIGREE

On Grand Cayman, as each sun-drenched day comes to a close, the scene clearly transitions from the waves lapping gently on Seven Mile Beach to thoughts of the delicious dining that can be found in every district across the island; from West, to Seven Mile Beach to Bodden Town, to name just a few. While the Island is perhaps most well-known for its internationally acclaimed annual epicurean event in January, the celebration and enjoyment of food is a local deep-seated tradition. Having earned the reputation as Culinary Capital of the Caribbean, the Islands undoubtedly boast a culinary pedigree to be proud of.

CARIBBEAN CUISINE

Infused with the true taste of the Caribbean, nothing comes close to traditional treats such as fried fish and fritters and jerk chicken or pork, served up from a variety of laid-back and unique streetside locations.

As one would expect from an Island, fresh fish and seafood abound and can be found all over the island, expertly prepared by a range of beachside cafés. On any given day the selection typically includes snapper, mahi-mahi, wahoo, and grouper, or whatever the local fishermen have happened to catch; often times that very day. As is customary with Caribbean cuisine, the fish is seasoned with local herbs and spices and grilled or fried to finger-licking perfection. Served with fritters, a traditional type of fried bread, the tasty morsels are often accompanied with local produce such as plantain or breadfruit. Tradition has it that Sunday wouldn't be Sunday without fish 'n' fritters. A favourite of the locals is Grape Tree Café in Bodden Town.

CULINARY EXCELLENCE

CARIBBEAN HISTORY

Caribbean history is intricately linked to the slave trade, and many of the foods commonly prepared were initially transplanted to the Islands by the African slaves. Over time as slavery was abolished, servants and workers from India, China, Europe and Jamaica arrived on our shores, bringing with them their own cultural flavours and styles of cooking which became indelibly infused within the local cuisine.

One such example is 'Jerk.' Typically prepared over charcoal in refurbished 55-gallon drums, the meat – be it chicken, pork, or fish - is marinated in a delicious special blend of spices that includes pimento – often called Allspice – and Scotch Bonnet peppers. The meat is then slow cooked and smoked for hours until it falls apart it is so tender - and unbelievably good! For a favourite snack, particularly after enjoying the sights and sounds of Cayman's nightlife, jerk stations have been a feature of Cayman's cultural cuisine for decades and can be found at convenient locations across the island.

Seymour's Jerk, established for over 20 years, is well known for authentic jerk chicken, pork and fish. However, this tasty edible treasure is also available at numerous locations including local favourite Red Bay Jerk Centre and Rankine's Jerk Centre in Bodden Town, among others.

The Cayman Islands is a melting pot of flavours, influences and ingredients which are sure to bring delight, whether you are a curious family cook or an avid foodie.

While on Island, we encourage you to visit the restaurants and waterside eateries which specialise in local cuisine and having tasted our edible treasures. For an off-the-beaten track experience, take a Cayman Food Tours that offers food tasting and a cultural walking tour. You'll soon begin to see why Cayman has so much more to offer than sun, sea and sand.

CAYMAN BRAC THINGS TO DO

Your Cayman Brac Adventure Awaits

If you are the type of person who is always on the go, Cayman Brac has plenty of activities to get the adrenaline pumping.

Dive into Cayman Brac's enticing waters and experience an aquatic adventure filled with exotic fish, famous shipwrecks and spectacular reefs.

The landscape is dominated by a commanding, 140-foot high limestone rock formation known as "the Bluff" – the perfect place to test your stamina and reward yourself with a spectacular bird's eye view of the island!

Cayman Brac's extensive hiking trails and caves also beckon the adventurous at heart, allowing you to explore the natural environment first-hand and break a little sweat as you walk through the forests to discover the local flora and fauna.

Choose from a wide array of island activities to fuel your passion for adventure.

THE BLUFF

The Bluff commences at the West End of the island and extends throughout the rest of the island down to Spot Bay. It is the highest point on this island as well as throughout the Cayman trio. On the Bluff there are literally hundreds of caves of all sizes. In the caves are bats and other living creatures.

CAYMAN BRAC LIGHTHOUSE

From the Parrot Reserve, continue travelling on Major Donald Drive east to the Lighthouse, located at the end of the road - there are actually two lighthouses at this point; an historic lighthouse and a newer model. Both are just lights atop tall towers but the view from this area is dramatic. What makes the view dramatic is the 140-foot-high Bluff, the highest point in the Cayman Islands. A trail weaves its way to the edge of the Bluff and provides excellent photo opportunities. Rocky paths snake their way along the Bluff; wear hiking boots for this challenge.

L&M ADVENTURE TOURS & TAXI SERVICE

Experience a taste of Cayman Brac! L&M ADVENTURE TOURS & TAXI SERVICE has an exciting locally guided bus tour of Cayman Brac at night. We will tell you about the beautiful Cayman Islands' history and tales of the past as we travel around the island and explore caves. Bring the whole family and experience a fun-filled night with a bonfire and rumcakes too!! 24-passenger tour bus available for rental to groups. **M: 345-938-2283**

HERITAGE SITES & NATURE TRAILS

SAVOUR THE GLORY of spectacular cliff walks on the 140-foot bluff thrusting vertically from the ocean floor. Have a close encounter with magnificent Frigatebirds and Brown Boobies and marvel at how these winged creatures are held aloft by air currents rising from the sheer bluff face. Explore the caves in which generations of Brackers have taken refuge during storms. **OUR WETLAND PONDS** harbour a wide selection of Herons and shore birds, including the rare West Indian Whistling-Duck. Many pause to rest and feed on their long migratory journey between North and South America. Some of these travellers, such as the Migrant Warblers, spend the winter in our woodlands. **OUR HERITAGE SITES** are marked on the map. The painted panels tell the story of early settlement, and the ecology of our wetlands and protected birds – the Booby and the Cayman Brac Parrot. **CERAMIC INTERPRETIVE SIGNS** and ecology panels give information on beach walks, historic sites and hikes on the woodland trails. Here trees and plants are clearly identified: the Tropical Cedar (the parrot's favourite for a cavity nest), the endemic Silver Thatch Palm, Pepper Cinnamon, orchids and cacti. **FOR BIRDWATCHERS** Cayman Brac has almost 200 species of birds, including the endangered Cayman Brac Parrot, with a population of only 350. Look for parrots on the north coast and in their protected woodland reserve on the bluff, and keep an eye out for the indigenous Vitelline Warbler and Red-Legged Thrush.

OUR WHITE HERITAGE SIGNS mark the locations of all the sites of cultural interest. **FOR YOUR OWN SAFETY**, always wear hiking boots on the trails, always carry water, consider taking a walking stick and go with a companion if possible. If you hike alone, inform your hotel of your intended routes. The limestone cracks easily, so be aware on the hiking paths — and never go too close to the edge of the Bluff. Please use the litter bins provided, leave the flora and fauna untouched, park off the main roads and respect 'Private' signs. Help us keep our island pristine, so that it will be just as beautiful when you return!

LA ESPERANZA

La Esperanza is an interesting mix of restaurant, bar with entertainment, grocery, car rental, boat dock, 4 apartments and 2 rental homes. It was first started as a small bungalow-sized gathering place by four friends back in 1986. It was the only spot for miles around that people could come to, relax in the cool of the evenings, enjoy some 'spirits' and exchange good stories. It remains a relatively small and casual place, owned by one of the original friends, Bussy Dilbert and his wife Velma. It is known for very friendly

personalized service, cleanliness, and the place to mingle with locals. It is unusually quiet and peaceful around here, with the exception of Friday and Saturday nights when Bussy cranks up his grills and 'jerks' chicken

LITTLE CAYMAN HERITAGE SITES & NATURE TRAILS

EXPLORE A NATURE LOVER'S PARADISE

where the sound of the outdoors surrounds you on a hike along the Salt Rock Nature Trail. Discover orchids, butterflies and birds in the forest, and a pirate's well and the remnants of phosphate mines from the 1800s.

THE CALL OF THE SEA is irresistible here. You can snorkel in the shallow reef-protected sounds or dive the famous Bloody Bay Wall. We also offer both deep-sea and fly-fishing. And for a quiet day where you picnic and laze your time away, take a kayak trip to Owen Island.

NATURAL, HISTORIC AND CULTURAL SITES. Our ceramic signs and ecology panels mark all sites of interest, while carefully constructed viewing platforms provide panoramic views of the main wetland lagoons.

OUR NATIONAL TRUST HOUSE has a wealth of information on these and other natural habitats and historic sites. Learn why our island has ecological significance or use the powerful telescopes to gain detailed glimpses of life in the Red-Footed Booby colony.

BOOBY POND is a designated wetland of international importance – a Ramsar site, that protects the largest colony of Red-Footed Booby, a magnificent Frigate bird colony and a large heronry. The reserve is also a winter haven for large numbers of migrant land birds, Herons, Waders, shore birds and Terns.

BIRD WATCHER'S DREAM, the island is home to up to 200 species; including thousands of Red-Footed Booby and an increasing population of the threatened West Indian Whistling Duck.

STROLL THROUGH BLOSSOM VILLAGE and feel the history of its single, narrow street, echoing from the traditional Caymanian houses that line it. Call in at our museum, and visit our village park – the site of the Cayman Islands first settlement in the 1600s. **WE STRIVE FOR NATURE AND FAUNA** and ask that you please leave the flora and fauna untouched and our beaches and trails pristine. We want our island to be as beautiful when you return.

BLOSSOM VILLAGE

This area on Little Cayman is probably the area that was inhabited by some of the first settlers. It was and still is the main town on this island. Blossom Village is home to the Quincentennial Monument that was erected in honour of brave Little Caymainans who dedicated their lives to service to country. These brave men and women helped to put Little Cayman on the map.

BIRTH PLACE OF RECREATIONAL DIVING

Historically recognised as the birthplace of recreational diving through the establishment of the Caribbean's first dive operation on Grand Cayman in 1957, the Cayman Islands has justifiably earned the coveted distinction as being among the most magnificent dive locations in the world. Our underwater world has an abundant marine life, vibrantly coloured reefs and dramatic walls less than a quarter mile off shore, Grand Cayman, Cayman Brac and Little Cayman are more than a diver's paradise.

DIVE CAYMAN 365 A DIFFERENT DIVE SPOT FOR EVERY DAY OF THE YEAR!

With the number of officially named dive sites in the Cayman Islands at 365, there are more reasons than ever to dive Cayman. Today, as one of the world's top dive destinations, we are home to more than 40 dive operators, tranquil calm waters, 100 ft. + visibility and a spectacular variety of marine life, pristine reefs, breathtaking wall dives and legendary wrecks.

THREE ISLANDS TO CHOOSE FROM

Comprised of three unique islands – Grand Cayman, Cayman Brac, and Little Cayman – the Cayman Islands offers both the novice and the experienced some of the best diving and snorkelling in the world.

Each of the three islands is surrounded by a shallow, environmentally protected coral reef. Our secluded location, far from other land masses, is what keeps our waters clean and clear and our coral healthy.

The Cayman Islands offers the most spectacular wall diving in the Caribbean partly because the islands are actually the tops of submerged mountains.

DIVERSE RANGE OF UNDERWATER ACTIVITIES

With a wide range of scuba diving activities available in the Cayman Islands, from vertical walls plummeting to depths of 2,500 ft. to ship wrecks and reefs to colourful shore diving and technical diving, the Cayman Islands diving experience – in water temperatures of 80 degrees year round – is second to none. You can even rent dive propulsion vehicles (DPVs) and see more of your favourite dive sites in one dive.

DIVE GRAND CAYMAN

With its calm, clear waters, dramatic vertical walls, stunning shallow reefs and storied wrecks, Grand Cayman is one of the world's premier dive destinations. Yet incredibly, many areas have yet to be explored. Even more astounding is that there is marine life galore – everywhere.

240 DIVE SITES FOR YOU TO EXPLORE

In the waters surrounding Grand Cayman you'll literally find it all, including the world's best 12 foot dive at the legendary Stingray City. There's so much to see, everyone can enjoy an experience unlike any other – 365 days out of the year.

REEFS & MARINE LIFE

Deep walls sporting sponges and corals in a breathtaking array of colours. Shallow reefs teeming with schooling fish. Large silvery tarpon, huge barrel sponges, glittery silversides and beautiful French angelfish. Gorgonions and hard coral, each with their own unique characters and special inhabitants. Marine life is teeming in the waters off Grand Cayman, as are the number of sites you can visit. Even better, no site is more than a few minutes offshore.

STINGRAY CITY

If there's one site almost every diver and snorkeller wants to add to their logbook while visiting the Cayman Islands this is it. Stingray City offers an exhilarating, one-of-a-kind, adventure, which is why it's been dubbed the world's best 12 foot dive. On a sandy seafloor in Grand Cayman's North Sound, large groups of gentle, graceful Southern Stingrays flock to visiting divers for their daily snacks of squid, putting them literally within arms reach as you feed and swim with them.

Run your hands gently over the sand as you swim to spook little hermit crabs and peacock flounders. Though world famous for walls that plunge to almost incomprehensible depths, Little Cayman also offers spectacular shallow reefs that host an amazingly abundant and varied collection of marine life.

60 DIVE SITES FOR YOU TO EXPLORE

A true "hideaway" from the everyday, complete with shimmering white sand beaches and swaying palm trees, this idyllic laid-back island paradise has become a mecca for divers everywhere thanks to the copious amount of marine life, brightly hued sponges and spectacular coral that abounds in its clear, bathtub-like turquoise waters.

REEFS & MARINE LIFE

Being off the beaten track has its advantages. Thanks to only minimal dive traffic, the underwater citizens of Little Cayman barely notice your presence, making this dive destination the perfect spot for underwater photography. Coral, fish, barracudas and grouper are plentiful. Turtles, jacks and parrotfish abound. And, in the evening, octopus roam the reefs and squid dart about, lashing their vibrant colours at the enthralled divers who have joined them.

BLOODY BAY WALL

Ask any diver who has experienced it and they will tell you that Bloody Bay Wall, Little Cayman's most famous attraction, offers the finest drop-offs in the entire Caribbean and has to be one of the most spectacular and varied dive locations in the world.

Imagine a wall starting at only 20 ft. and then plummeting to an astounding 6,000 ft., covered with spectacular formations of yellow tube, strawberry and orange vase sponges, tangled masses of scarlet rope sponges, and waving sea fans. As you traverse the wall, eagle rays, barracudas, sharks and grouper join you. In a word, heaven.

If you want to get close to one, get down into the sand as low as possible and wave your hand to create a small "dust cloud," similar to what they do when feeding. The spotted eagle rays will think there is food and they might approach you!"

SHEER EXHILARATION IN LITTLE CAYMAN

Diving Little Cayman is a dream come true. Bloody Bay Wall is the main attraction, but there are other sites that are equally as exciting with numerous tunnel systems and crevices, both on the shallow reefs and out over the wall. WRECKS OF THE CAYMAN ISLANDS

Below the tranquil, calm waters of the Cayman Islands innumerable surprises await – so many that you could dive a different site 365 days of the year and never see the same thing twice. Among the most spectacular of these are the Cayman Islands’ legendary wrecks.

GRAND CAYMAN

A favourite of divers is the Doc Poulson. Sunk as an artificial reef off Seven Mile Beach, it sits upright on a bed of pure sand. Another great wreck is LCM David Nicholson, a 50 ft. WWII LCM landing craft that sits upright in 65 ft. of water. It’s a favourite haunt of divers, as is the nearby 9 ft. tall, 900-pound bronze statue of a mermaid – one of only two in the entire world. Also not to be missed is our newest wreck, the Kittiwake, a 251 foot, 5 deck, 2,200 ton vessel decommissioned in 1994 after over 50 years in service. The “Guardian of the Reef” a mythological half warrior, half seahorse will become the latest addition to Cayman’s dive scene. In January 2014 the Guardian will be sunk in 65 ft. of water just off Lighthouse Point, on the island’s northwest point.

CAYMAN BRAC

The MV Capt. Keith Tibbetts – a 330 ft. Russian frigate – was intentionally sunk off the Brac’s West End in 1996. Sitting in 50 to 100 ft. of water, this is the only divable Russian warship in the Western Hemisphere. Another unique underwater offering is the Oceanic Voyagers, a 7 ft. tall bronze statue depicting a pair of spotted dolphins cavorting with the Cayman Islands’ famous southern stingrays. Other great sites are the Cayman Mariner and the Kissimmee.

LITTLE CAYMAN

On laid back Little Cayman a superb array of spectacular dive opportunities await you. In addition to the island’s premier attraction – the renowned Bloody Bay Wall – you can also explore the wreck of the Soto Trader, a cargo barge that sank off the South Side of Little Cayman in 1976.

LEARN TO DIVE

Crystal clear, warm waters all year round, 100 ft. + visibility and 365 dive spots – one for every day of the year – make the Cayman Islands the ideal location to learn to snorkel or dive, refresh your skills or gain advanced speciality training. Best of all, virtually all of the major hotels and resorts have their own dive centre or are affiliated with a dive operator. Need gear too? We can outfit you from fins to face mask.

RESORT COURSES/DISCOVER SCUBA

One of the most popular ways to learn to dive is by enrolling in a resort course. After just a few hours of instruction in a pool learning about the basics, water safety and conservation, you'll be ready to experience some of the Cayman Islands' legendary dive sites with your instructor.

OPEN WATER REFERRALS

Completed the classroom and pool sections of an open water scuba course? Love to make the requisite open water dives in the warm, turquoise waters of the Cayman Islands? This process will be a lot simpler if your dive instructor at home refers you to one of our dive operators before you arrive.

OPEN WATER CERTIFICATION AND REFRESHER COURSES

If you don't complete a referral at home, you can still save time and complete the theory online. Once you arrive, your open water certification can be completed in as little as 2 days (Elearning) or 3 days (full OW course). Quick, easy refresher courses are also available almost everywhere.

SPECIALITY AND TECHNICAL COURSES

The speciality training options in the Cayman Islands are almost unlimited – from underwater photography and wreck diving to navigation and night diving. Technical courses such as nitrox, Trimix, rebreather and extended range diving are also available.

DIVEMASTER AND INSTRUCTOR TRAINING

If you're ready to take the plunge and join the ranks of the professional dive community, the Cayman Islands provides the best training available.

KIDS

From ages 4 and up, your kids can explore the ocean with trained instructors in programmes ranging from Sasy and Bubblemakers to Seals/Rangers and through Jr. Open Water courses or specialties designed for kids.

REBREATHERS

The Cayman Islands is a long time supporter of Rebreather divers; you'll enjoy rebreather profiles, have gases, tanks and scrubbers readily available, or partake in a rebreather experience or a certification course – from rec to tek.

NITROX/TECHNICAL

Nitrox 32% is available at all dive operators. For technical and rebreather divers, doubles, deco bottles, sidemount options and technical gases and scrubber are on offer from select operators. The sheer deep walls and the sponge belt with incredible vis at 300 ft. offer unparalleled, world class technical diving from dive boat or minutes from a shore dive.

DPV/SCOOTERS

Cruise the reefs and walls James Bond-style. There's nothing like the excitement of cruising on a scooter from kids 5 years old to advanced divers.

SAFETY

The Cayman Islands boasts state-of-the-art medical facilities including a hyperbaric chamber (located on Grand Cayman) and in the event of an emergency, quality care can be provided in minutes. All dive boats carry oxygen and have staff fully trained in emergency first response and oxygen provision.

DISABLED DIVERS

Disabled divers can experience psychological rehabilitation as they realise the freedom experienced upon entering the water. Many Cayman Islands operators can cater to all types of disability with custom built dive boats and staff on hand to accommodate their various needs.

PROTECT THE SEAS - 365 DAYS A YEAR

MARINE CONSERVATION

The people of the Cayman Islands understand the importance of maintaining a healthy underwater environment and have taken great care to preserve the treasures of the deep for future generations. To that end, they have developed a series of environmental laws that will help ensure the sustainability of their natural environment. By working together to protect the environment and committing to conservation, everyone will benefit – both today and for generations to come. Below is a brief summary of the Marine Conservation Laws in the Cayman Islands:

- Damaging coral by anchor, chains or any other means ANYWHERE in Cayman waters is prohibited.
- No taking of ANY marine life – alive or dead.
- No taking of any coral, sponges, etc. from Cayman waters.

REEF PRESERVATION

The value placed upon the preservation of the coral reefs around the islands is reflected in the section of the law which makes it an offence for anyone without a license to cut, carve, injure, mutilate, displace or break any underwater corals, plant growth or formation. Anyone who breaks off a piece of coral to take home as a souvenir of his/her Cayman vacation is therefore breaking the law, as well as failing to take into account the important fact that it will take many years for that growth to be replaced. Many, if not most, corals grow at a rate of less than half-an-inch a year; so if the underwater beauty which has taken centuries to develop is to remain for the future enjoyment of everyone, residents and visitors must act responsibly.

MARINE PARKS

Whatever other treasure lies hidden in the Cayman Islands, there can be no doubt that the greatest treasures are the clear waters and healthy reefs which make these islands a pre-eminent centre for diving and other water sports. Marine Parks, Replenishment Zones, Environmental Zones and Animal Sanctuaries have been set up on the islands to ensure that Cayman's treasures will be in pristine condition for generations of visitors to enjoy.

LIONFISH

The Indo-Pacific Red Lionfish, native to the Indian and Pacific Oceans, has managed, with some human help, to break free of its native range and spread into the coastal waters off Florida and into the Caribbean. By 2008 this dark invader threatened the reefs of the Cayman Islands.

However, through foresight on the part of the Cayman Islands Government, legislation was introduced to allow spears to be used to remove the fish and a licensing programme was begun to license individuals to cull lionfish from the Cayman Marine Parks. Current research shows that a sustained high level of culling can and does yield positive results.

LIONFISH FACT: Lionfish can expand their stomach over 30 times the empty volume and consume prey up to 2/3 their body length. They are generalist predators and have been documented to eat 70 different species of prey in the Cayman Islands.

INSIDER SNORKEL TIP:

“You hear people say ‘Don’t believe your eyes’. However, marine organisms are so good at camouflage that I find my eyes often realise something is out of place before my brain does. Always look closer, because chances are that if something doesn’t quite look right, then you’ve unknowingly spotted something cool! (squid, seahorses, decorator crabs)”

– Amanda Nicholls, Red Sail Sports

BRING ALONG YOUR REEF ID CARD TO HELP YOU IDENTIFY WHAT YOU SEE!

If you’ve never tried snorkelling, there is no better place to learn this exciting sport than in our calm, clear waters. With spectacular reefs that are easily accessible by boat and from shore, the Cayman Islands is one of the world’s preeminent snorkelling destinations. Complement this with warm, clear turquoise waters and an outstandingly healthy array of fish, corals and marine life and it’s obvious why these are the islands snorkelling aficionados dream of all year long.

GRAND CAYMAN

Excellent snorkelling can be found in the waters all around Grand Cayman from shore, and many of the best snorkel sites have operators on site to rent equipment, shower and provide briefings. In George Town: Eden Rock, Devil’s Grotto, Sunset House and Wreck of the Cali. In West Bay: Divetech’s Lighthouse Point and Cobalt Coast Resort’s, Sea Fan Reef. From a boat, you can visit the world famous Stingray City, Coral Gardens and Sand Bar in the North Sound and not to be missed, the ex-USS Kittiwake situated in a marine park where a snorkel wristband is needed and is included in your operators price, going towards the maintenance and protection of the new artificial wreck and natural reefs.

CAYMAN BRAC

Adventurous types are certain to delight in the snorkelling sites that abound in the waters off Cayman Brac, most of them easily accessible from shore. For the ultimate thrill, grab your fins and mask and head out to the MV Capt. Keith Tibbetts, a 330 ft. Russian-built frigate sunk in 50 – 100 ft. off Cayman Brac’s northwest coast.

LITTLE CAYMAN

Its multitude of graceful palm trees, dazzling white sand beaches and laid-back lifestyle, Little Cayman offers a delightful array of snorkelling sites to choose from, including South Hole Sound, Point O’ Sand and the truly unforgettable Bloody Bay, where the wall begins at only 18 ft.

CAYMAN ISLANDS

FARM TO TABLE

A LOCAL FOOD MOVEMENT

CAYMAN INSPIRED.
LOCALLY SOURCED.

The movement to bring the freshest produce and finest ingredients straight to hungry patrons is evident in the menus and kitchens of several restaurants in the Cayman Islands. With fertile and free-range farms supplying these establishments with a broad array of vegetables and meats, foodies like The Brasserie's Chef Dean Max can create menus featuring only the best that Cayman agriculture has to offer.

The Brasserie has been a pioneer of the farm to table movement in the Cayman Islands for years. The restaurant and its adjacent market source most of their produce from a large kitchen garden out back, while also maintaining strong connections with farms across the island for other products.

The Brasserie isn't alone in its efforts to connect food to fork. Michael's Genuine Food and Drink, Southwest Collective, The Greenhouse, Jessie's Juice Bar and Cayman Cabana also create menus that are based on what is locally available. Michael's Genuine earns the "genuine" in its name by offering straightforward cuisine that reflects the restaurant's island home and gives guests the most authentic experience possible. Southwest Collective calls itself a "cafe/bar with a difference." By focusing on good ingredients and simple foods, this casual George Town spot is a go-to for great food and a great time.

Photo by Plantation Organics.

Jessie's Juice Bar, by comparison, offers fresh juices and smoothies that change with the season, and sells baked goods that cater to gluten-free and vegan diets. The Greenhouse located in the heart of West Bay is an environmentally-conscious cafe with a menu that offers gluten-free or paleo-friendly options.

Cayman Cabana located on the waterfront in George Town is doing something really special and unique as they collaborate with local farmers and fishermen to host a Thursday weekly "Oceanside farm to table dinner series". It is authentic, true to its name and heritage, culinary intimate and absolutely delectable.

On the other side of the farm to table trend is Plantation Organics, a two-acre farm in the lower valley district of Grand Cayman that grows 400 types of organic fruits, nuts, spices, vegetables and herbs. The farm also hosts "Garden-to-Gathering" events, where a garden tour is followed by a farm to table dinner made by a local chef. In addition to supplying numerous

restaurants with local produce, the farm also has a booth at the weekly Farmers Market in Camana Bay.

Whether you're a restaurateur, an avid foodie or a supporter of the local food movement, the Cayman Islands has a host of options for those in search of a healthy and authentic food experience.
